DETAILED ACTION

REMARKS

1. Applicants' amendment dated February 27, 2008 responding to the November 27, 2007 Office Action provided in the rejection of claims 1-20, wherein claims 1, 7, 9, 16, and 19 have been amended and new claim 21 has been added. Claims 1-21 remain pending in the application and which have been fully considered by the examiner.
2. Applicants' supplemental amendment filed May 1, 2008 after agreement was reached during a telephone interview on April 28, 2008 (please see interview summary 04282008), wherein claims 1-10 and 19 have been amended. Claim 21 has been canceled.
3. The terminal disclaimer previously filed on **June 8, 2005** disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U. S. Patent No. **6,029,159** has been reviewed and is accepted. The terminal disclaimer has been recorded.
4. The terminal disclaimer filed on **May 1, 2008** disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U. S. Application No. **09/887,824** has been reviewed and is accepted. The terminal disclaimer has been recorded.

5. The Examiner withdraws the rejection of claims 1-20 under 35 U.S.C. 103(a) corresponding to Applicants' amendment. However, there is a minor typo error that calls for the examiner's amendment below.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

Claim 7

The A method as recited in claim 1, wherein multiple account processing material is integrated into the presentation, and wherein the student is able to place one of a plurality of accounts on one of a plurality of targets.

REASONS FOR ALLOWANCE

1. The following is an Examiner's statement of reasons for allowance:

Claims 1-20 are considered allowable since when reading the claims in light of the specification, as per MPEP §2111.01, none of the references of record alone or in combination

disclose or suggest the combination of limitations specified in independent claims 1, 10, and 19 including an invention for creating an accounting goal presentation with feedback partitioning into a plurality of feedback levels (defined at e.g., pages 14-16), evaluating student progress and providing a determined feedback having a feedback category (defined at e.g. pages 14-16), further determining the type of the feedback category (defined at e.g. pages 14-16), when the feedback category corresponds to an administrative category (defined at e.g. pages 14-16), and the administrative category includes at least two of the features as detection of the student cheating through a task, detection of the student submitting no work and avoiding notice, detection of the student submitting minor changes to obtain a hint (defined at e.g. page 14, lines 38-39, page 16, lines 1-10), when the feedback category corresponds to an educational category (defined at e.g. pages 14-16), and dynamically adjusting a selected level of feedback based on the progress of the student toward the accounting goal (defined at e.g. pages 14-16).

The computer-readable medium in claim 19 has been interpreted as being a tangible medium/computer memory as disclosed at e.g., Fig. 1.

The Examiner was persuaded by the arguments filed February 27, 2008 (see Remarks, pages 8-12).

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
